③

Click button to pay [pay online now](#)

If you are already registered for Auto Direct Debit the total amount due will be automatically debited from the approved account on the due date.

## How to Pay

Payment can be made online via credit card, BPAY, or bank account by clicking on the 'pay online now' button in blue. Just follow the [step-by-step instructions \(PDF\)](#) or visit our website for more details.

Source Energy Co Ltd Pty - ABN 20 511 435 208

Website: [www.sourceenergyco.com](http://www.sourceenergyco.com)

Email: [accounts@sourceenergyco.com](mailto:accounts@sourceenergyco.com)

①

This is the Source Energy Co state regulated tariff that you are on. For details please visit <http://sourceenergyco.com.au/set-up-a-new-connection/>

For those of you with individual solar pv you will be on A2.

②

The Average daily consumption is displayed in kWhrs (units) and average daily cost in \$. It is calculated by imported energy from the exported energy and dividing by the billing period (number of days). If, as in the case of this example bill, you export more than you import it will be shown as a negative. It does not show how much you actually consumed onsite as the meter can not determine how much energy you consumed directly from the solar.

③

The Total Export is the amount of excess solar PV energy you exported into the network expressed in kWhrs or units. It is GST free unless you are registered with Source Energy Co as a business, registered for GST and have provided an ABN.
